...WHERE CREDIT IS DUE DEPT:

The seniors, who, if all goes well, will leave the college scene in six short months, can surely say that the 1st game of the last football season of their student days was a memorable occasion. A well-played, hard-fought game, with a result that could hardly fail to pacify the majority; and a marvelous party, with real live music (the editorial ear-drums are still resonating!), interspersed with interludes of carefully contrived horseplay, and all complemented by the new and extended appearance of many Gryphons on the social scene; who could want more in one day?

We present a final report from the chairman of the party committee:

Everyone that came to the party contributed a great deal, of course, but in the preparatory and cleaning work these chaps did a tremendous amount. Honors to Bob Stebbins, Dick Lambert, Bob Emerson, George Dolan, Ernie Schickedanz, and Mel Masuda; Mike Gordon and Bob Bierley, our beautifully suited bar-men; Dave Blanchard for his wood-chopping exploits; Don Derse and Bill Bradbury for mustering such a bevy of beautiful babes; Beall Fowler, Dave Eyer and Tom Gott for transportation in high style; Bill Freod, the quietest and most efficient "bouncer" I've never had the pleasure of meeting (officially); Howard Troy for the valued loan of his player, and sundry members for the records to go along with it; Mr. and Mrs. Campbell for their welcome presence, and "the Boss" for demonstrating again his histrionic abilities. Deserved kudos to Lehigh Nick for putting us all in tucks; nice drinking, son! And to Si Morse who tied us all up literally and mirthfully.

Finally, choers to the guys who really swung our evening through-the members of the band. Gryphons would be doing them a real service --for this was their first public appearance -- if they would really publicize abroad their worth. Their manager is Ross Chapplo, Richards 422. Interested parties may see him or me.

Here's to the next time!

G. N. D. Evans

In closing we wish to rectify an omission from the credit list, namely, the above-named social chairman - persuader, organizer, and spark-plug in general. A tip o' the cap (bowler? derby? what do Welshmen wear, besides long hair?) to old G.N.D.D!

SLM

"VOICE FROM THE PAST" DEPT:

Walt Grabowsky was sent copies of the "campaign" literature we are using in contacting potential Gryphons, and one of his comments was: "I like the way you've covered every anglo - but one. You neglected the prestige factor of Cedar girls, e.g., saying 'My guy's a Gryphon!'"

PLUTARCH'S "LIVES" RELIVED

Beall Fowler - Dravo C-3

Known to us as "Ba-Ba" since his freshman days in B-5 Dravo (sometimes called the Attic), Beall has been a three-year mainstay in the Counselling Program and Gryphon Society. Now Vice-President and Social Chairman, he has long been a quiet but persevering worker in all Gryphon activities. Anyone who knows Beall realizes that beneath his laconic manner is an intellect both rational and warm and a drollness matched by but a few.

Beall will receive a B.S. in Engineering Physics this June, and is planning graduate study that will enable him to teach his subject at a college level. Apart from Gryphon activities, he is secretary of the American Institute of Physics chapter, a member of Phi Eta Sigma, Tau Beta Pi, and Pi Mu Epsilon. His major preoccupation is holding up one end of a Lehigh-Iowa correspondence.

Gryphons will see Beall in intramural basketball and soft-ball (and many other events); he will long be remembered for his Artificial Gravity Compensator which did much to steady the uncertain few

at last spring's HP, and his Atomic Beer Can Disintegrator, which proved an admirable accessory to that party.

Scholastically, Beall can place his average with the highest. A member of the Honors Program, his interest in people, culturally and individually, has led to extensive reading in these fields, providing him with a sound basis for his counselling work. This, and his intuitively friendly responses have made him one of the most successful counselors, and, to our benefit, one of our closest friends.

NL

Dennis Mulherin - Richards 3A

Born and raised a Scranton boy, Denis is a sophomore majoring in Engineering Physics; he hopes to continue to graduate work in physics. Obviously, Denny is primarily interested in physics, but he spreads his favors among all courses, even to winning a scholastic achievement award in ROTC. This evidence of scholarly diligence is further supported by his membership in Phi Eta Sigma, American Institute of Physics, and his appearance on Dean's List.

He has devoted much time to the Society, with his activity in the Ugly Man Contest campaign, on the committees discussing multiple-valentine men and the Residence Halls information booklet, and on various social committees. Yet his willingness and capability for work do not preoccupy him from sharing personal warmth and friendliness with his acquaintances, and allowing an occasional touch of delightfully droll humor to peep through his dignified exterior. A good man to get to know!

WF & SLM

CRAZY CUPID DEPT or More About Valentines: IMPORTANT!

Last week's instructions still apply (please review if you don't remember); i.e., individual counselors are to see either Bob Bierley or Jim Fozard about 3-or-more valentine men, and 2-valentine men who are in trouble equivalent to 3 valentines. In addition, all these freshmen are to attend house meetings (by ironbound "suggestion") with Fozard and Bierley, preliminary to signing them up for interviews. The meetings will be in the respective house lounges (former Bamboo Room in Dravo), on this Tuesday night, at 9 in Dravo, 9:30 in Richards, and 10 in Drinker.

FLICK-LIST DEPT:

Boyd

Thru Thanksgiving

"The Last Hurrah;" Spencer Tracy.

College

Thru Tues.

Starts Wed.

"Cry Baby Killer," "Hot Car Girl."

"Tunnel of Love;" Doris Day, Richard Widmark.

Globe

Thru Tues.

Starts Wed.

"Appointment with a Shadow;" Brian Keith,
Virginia Field, George Nader.

"Vortigo;" Kim Novak, James Stewart.

Nile

Thru Tues.

Starts Wed.

"The Eddy Duchin Story;" Tyrone Power,
Kim Novak.

"Houseboat;" Cary Grant, Sophia Loren.
